PROJECTS

[Vita Care - AI Powered Healthcare Mobile Application ↗](#)
Aug 2026

Developed an AI-powered healthcare mobile application using React Native, Expo, Firebase, Firestore, and Gemini AI, featuring AI medical report scanning, simplified health insights, recommendations, and personalized health reminders with push notifications.

[Future-Fits - E-Commerce Website ↗](#)
Apr 2026 - Jun 2026

Future-Fits is a responsive e-commerce web application designed to provide users with a smooth online shopping experience. Built using HTML, CSS, JavaScript, Firebase, and Firestore, the platform includes user authentication, product browsing, and cloud-based data management with a modern and responsive interface.

[Note App ↗](#)
Jul 2026

Note App is a responsive web-based note-taking application built with React and Tailwind CSS. It allows users to create, edit, and delete notes through a clean and intuitive interface. The project focuses on reusable React components, responsive design, and a smooth user experience.

[JobBoard - AI Powered Job Searching Platform](#)
Aug 2026 - Present

AI-Powered Job Searching Platform is a web application designed to help users discover relevant job opportunities using AI-powered recommendations. The platform aggregates job listings, allows users to search and filter opportunities based on their preferences, and uses AI to suggest jobs that match their skills and interests.

*This is currently work in progress.
